

Tuesday

I can describe the weight of objects using vocabulary like heavy and light.

Practical lesson:

Which dinosaur egg is the heaviest? Which dinosaur egg is the lightest?

Key vocabulary

heavy

heavier

heaviest

light

lighter

lightest

Scale

weigh

Home learning:

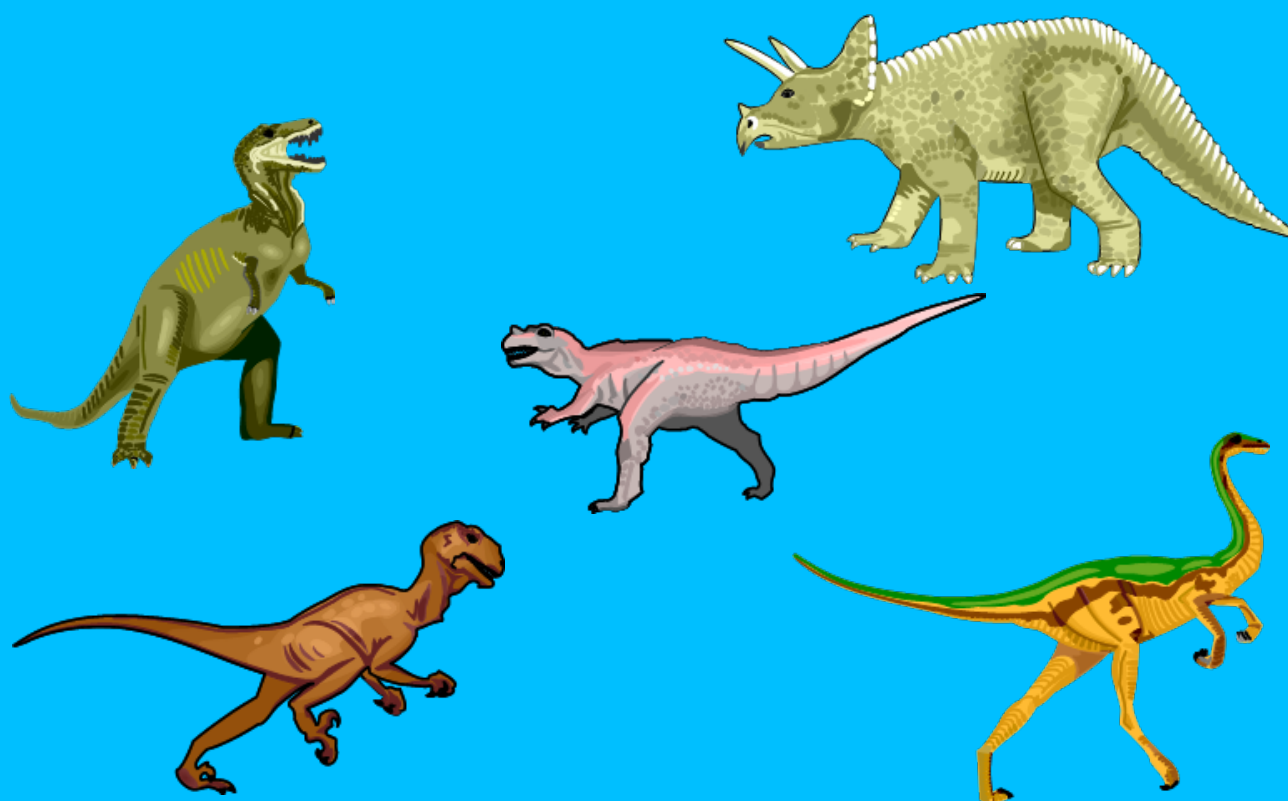

Can you find some objects in your house to weigh?

If you don't have any scales hold two objects and discuss which feels heavier and which feels lighter.

Thursday

I can use the vocabulary involved in $+/ -$ in practical activities.

How many dinosaurs can you count?

Can you find the number five?

3

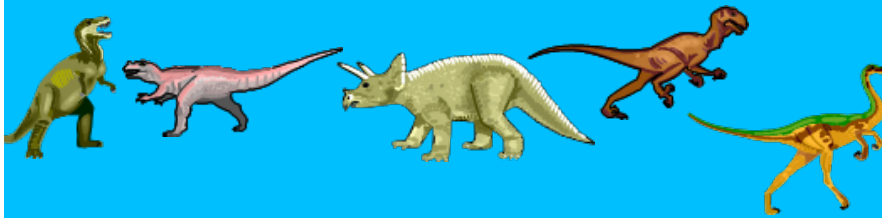

4

5

2

1

Let's learn the song 5 enormous dinosaurs...

Home learning:

See powerpoint 5 enormous dinosaurs.

If you don't have any dinosaurs at home.

Use any objects.

Practical session:

Using 5 dinosaurs act out the song. Take one away and count how many are left? Then repeat. What happens when we take one away?

Can we do it the opposite way? start with one dinosaur adding one each time.

What happens when we add one more?
