

# *Bellissimo*

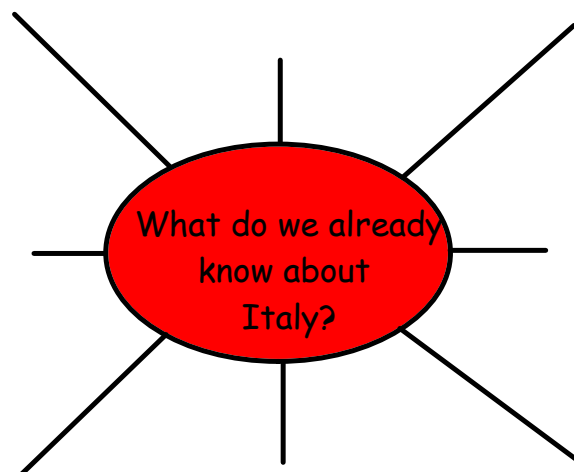

Our topic this half term is... Bellissimo.

What do you think this topic is about?

Let's stick in our front cover page.

This term we will be taking a journey across Europe, into the magnificent country of Italy.

Stick in your KWL Grid and complete the first column.

What do we want to find out about Italy?

Write any questions you would like answering into your second column.

How...?   What...?   Where...?   When...?   Why...?   Who...?

L.O. I can understand which countries are in the continent of Europe.

L.O. I can understand the terms longitude and latitude and their significance.

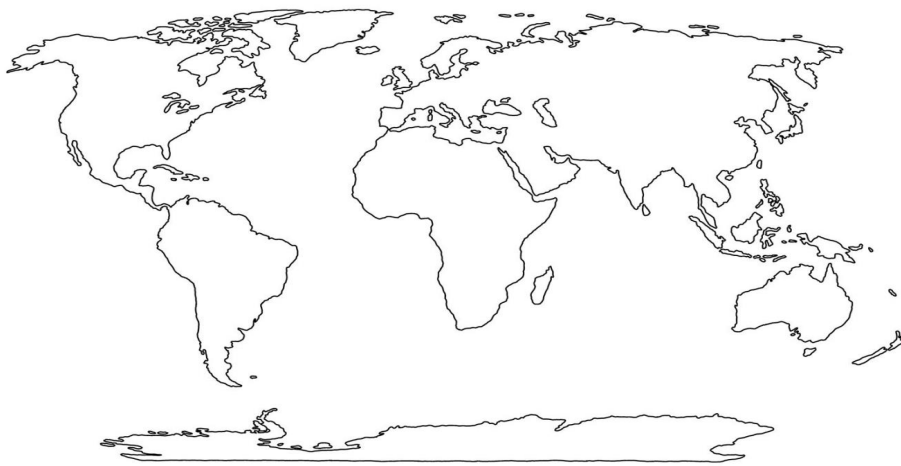

- What are the 7 continents of the world?

- What are the imaginary lines around the centre area of our world called? What are they?

- Can you name any of the oceans?

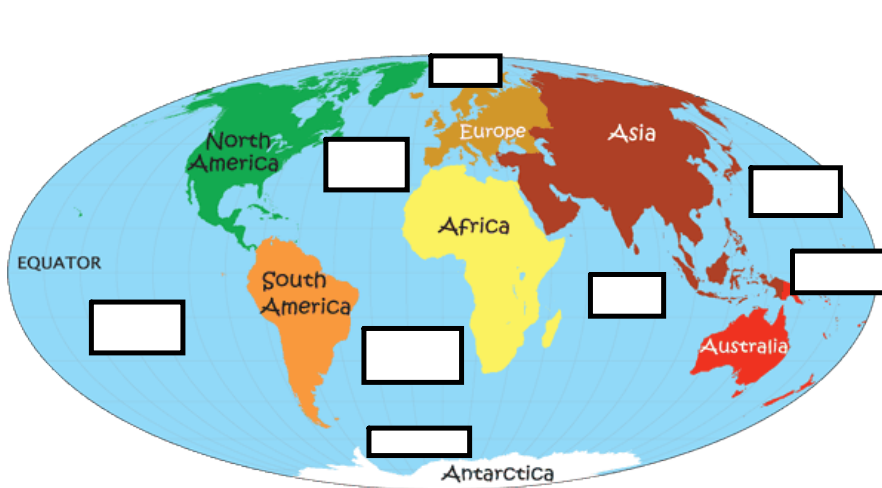

What are  
continents?

Where are the  
continents?

Continents are landmasses and we group the countries on these landmasses.

**Task:** Glue in the world map you have been given and colour in the continents (use a different colour for each) then label them.

What are the oceans called?

Can you name any seas?

Over 70% of the world is made up of water!

**Task:** Add the oceans and seas to your map.

- Which continent is this a map of?
- Where are we?
- Where is Russia?

Label this on your map.

Use the atlases and ipads to research which countries, seas and oceans form the continent of Europe.

### Step 1

You should label: United Kingdom, Spain, France, Italy, Germany, Atlantic Ocean, North Sea and the Mediterranean Sea.

### Step 2

You should label: the rest of the countries in Europe

### Step 3

You should label: the capital cities of England, Spain, France, Germany, Italy and Portugal.

Where is Italy?

Does it resemble anything?

What is the capital city?

Can you name any cities?
